**Re: Notification to Mineral Freehold Owners
Application for Approval to Establish a Holding
Westrose South Area, Alberta – Glauconitic Gas
Application Area: Section 17-044-02 W5M**

Bonavista Energy Corporation., as Operator will be applying to the Energy Resources Conservation Board (ERCB) under Section 79(4) of the *Oil and Gas Conservation Act* and in accordance with Sections 5.190 & 15.160 of the *Oil and Gas Conservation Regulations* to change the sub-surface well spacing for the production of gas from the Glauconitic Formation in the land noted above.

Records indicate that you are a Freehold Mineral Owner in Sections 07, 09, 17 & 19-044-02 W5M and that your minerals are leased. ERCB Directive 065, *Resources Applications for Conventional Oil and Gas Reservoirs*, requires that all Freehold Mineral Owners within the applied for formation in the application area and one (1) drilling spacing unit (DSU) surrounding the area of application whose rights are leased receive notification of a well spacing application. The purpose of this application is to provide you with information regarding potential development and to support ongoing dialogue between you and the lessee of your minerals.

The gas well spacing in the application area is currently governed by a Holding subjected to the following conditions:

- **A producing well shall be 300 meters from the South & West Boundaries of the Holding.**
- **There shall be a maximum of three (3) wells per Pool per Section.**

Bonavista propose to change the spacing for gas production from the Glauconitic in the application area as follows:

- **A producing well shall be 300 meters from the South & West Boundaries of the Holding.**
- **There shall be a maximum of four (4) wells per Pool per Section.**

The lessee of your minerals has also been notified of this application. Therefore, if you have any questions regarding the effect of this application on your interests, please contact the lessee. If discussions between you and the lessee do not address your concerns, please clearly state your concerns in writing to the undersigned at the letterhead address or by fax or e-mail within 15 business days from the date of this letter. Your concerns will be included as a submission to the application when file with the ERCB.

Under Section 13 of the *Energy Resources Conservation Board Rules of Practice*, all documents filed with the ERCB in connection to an application must be placed on the public record which may be accessible on the Internet. As such, you should not include any confidential or sensitive personal information (*e.g., health issues, financial position, and family issues*) in documents submitted to us or the ERCB that you do not want to appear on the public record. However, any party may, before filing the document, file a request to the ERCB for confidentiality of documents under Subsection 13(2). The Board may grant a request for confidentiality on any terms it considers appropriate, subject to the *Freedom of Information and Protection Act*.

After the application has been registered with the ERCB, copies may be obtained by contacting the undersigned or may be viewed electronically by accessing IAR Query through quick links on the ERCB Web site at www.ercb.ca. Any questions regarding the ERCB process should be directed to the ERCB Customer Contact Centre at 403-297-8311.

Yours truly,

BONAVISTA ENERGY CORPORATION
